

01

## New Release v2.0.0

a11y Companion is the official accessibility checklist widget for Figma and FigJam. It brings the A11Y Project Checklist into your workflow for manual, team-visible WCAG tracking, with clear guidance and progress.

### a11y Companion

- > Content 0 / 3
- > Global code 9 / 9
- > Keyboard 3 / 3
- > Images 4 / 4
- > Headings 4 / 4
- > Lists 0 / 1

Lists elements let people know a collection of items are related and if they are sequential, and how many items are present in the list grouping.

Use list elements (`ol`, `ul`, and `dl` elements) for list content.

This may include sections of related content, items visually displayed in a grid-like layout, or sibling `a` elements.

1.3.1 Info and Relationships (A)
